

ECODEFI

Eco-design and development of methodologies for the innovative manufacturing of crop spraying machinery

BUDGET

€3,000K

GRANTS
OBTAINED

€730K

ANR FUNDING

2007 - 2011

THE PROJECT

The ECODEFI project concerns eco-design applied to crop spraying technologies with a view to meeting a major challenge: the reduction of the impact of crop spraying on the natural and anthropic environment, by developing eco-design among the industrialists in the sector.
